## PROJECTS

- Stock price prediction using ANN** (Self Learning Project) **Feb 2023 — Mar 2023**
- Technologies : Python, MySQL, Neural Network, Jupyter Notebook, Vs code
  - Predicting future stock prices using stock price history dataset, created machine model with LSTM & Artificial neural networks using TensorFlow & Keras.
- Sentimental Analysis using NLP** (Self Learning Project) **Mar 2023 — Apr 2023**
- Technologies : Python, MySQL, Neural Network, Jupyter Notebook, Vs code
  - Analyses automated processes of tagging data according to their sentiment, such as positive, negative, and neutral. Allows us to analyze data at scale, detect insights and automate processes.
- CI/CD Pipeline for ML Projects using Jenkins** (Self Learning Project) **April 2023 — Jun 2023**
- Technologies : Python, MySQL, Neural Network, Jupyter Notebook, Vs code, Docker, Jenkins.
  - The CI/CD pipeline keeps the ML model always up-to-date and maintains quality also It helps to automate the deployment of the model to production and reduces model production time.

## EXPERIENCE

- Data Science Intern** **Apr 2022 — Jun 2020**  
CodeClause India
- Trained on Big Data Analytics and various ecosystems like Pig, Hive, Sqoop, Hadoop.
  - Worked on Data preprocessing, Data cleaning, Data visualization & Overall data analytics, completed projects like gold price prediction and fake news analysis.

## EDUCATION

- B.E. Computer Science and Engineering** (Current CGPA-8.21)  
Prof. Ram Meghe College of Engineering and Management, Badnera **Aug 2020 — Jun 2024**
- Higher Secondary**, 60.15%  
S. Bande Arts & Science Junior College, Warud **Apr 2018 — Apr 2020**
- High School**, 87.80%  
Janta High School, Shendurjana Ghat **Apr 2013 — Apr 2018**

## TECHNICAL SKILLS

- |                              |   |
|------------------------------|---|
| <b>Programming Languages</b> | C, C++, Python,   |
| <b>Databases</b>             | MySQL, MongoDB  |
| <b>Tools</b>                 | GIT, Docker, AWS, MS Office   |
| <b>Other</b>                 | Data Analytics, Problem Solving, Leadership, Machine Learning, OpenCV |

## ACCOMPLISHMENTS

- Eureka zona list 2022 IIT-B (Being Asia's largest business model competition)
- 150+ Problems Solved on GeekforGeeks

## CERTIFICATIONS

- Python with Data Science – IBM
- Google Data Analytics professional certification – Coursera
- Introduction to Statistics – Coursera

## INTERESTS

- Stock Market, Sketching, Travel & Explore, Athletics.
